

The background of the slide features a black and white aerial photograph of a dense urban skyline, likely New York City, with many tall buildings and skyscrapers visible.

Data Bootcamp Final Project
2019 NYU Stern Spring Semester

The Changes in the Real Estate Investment in China over the Last 15 Years

Principal Investigators:
Ruijie (Cherry) Cai, Wei Wang

China Real Estate Industry is in Cooling Trend (Avg Stock Price and Amount of Trading)

Avg. Investment in Residential Buildings Per Capita Increased

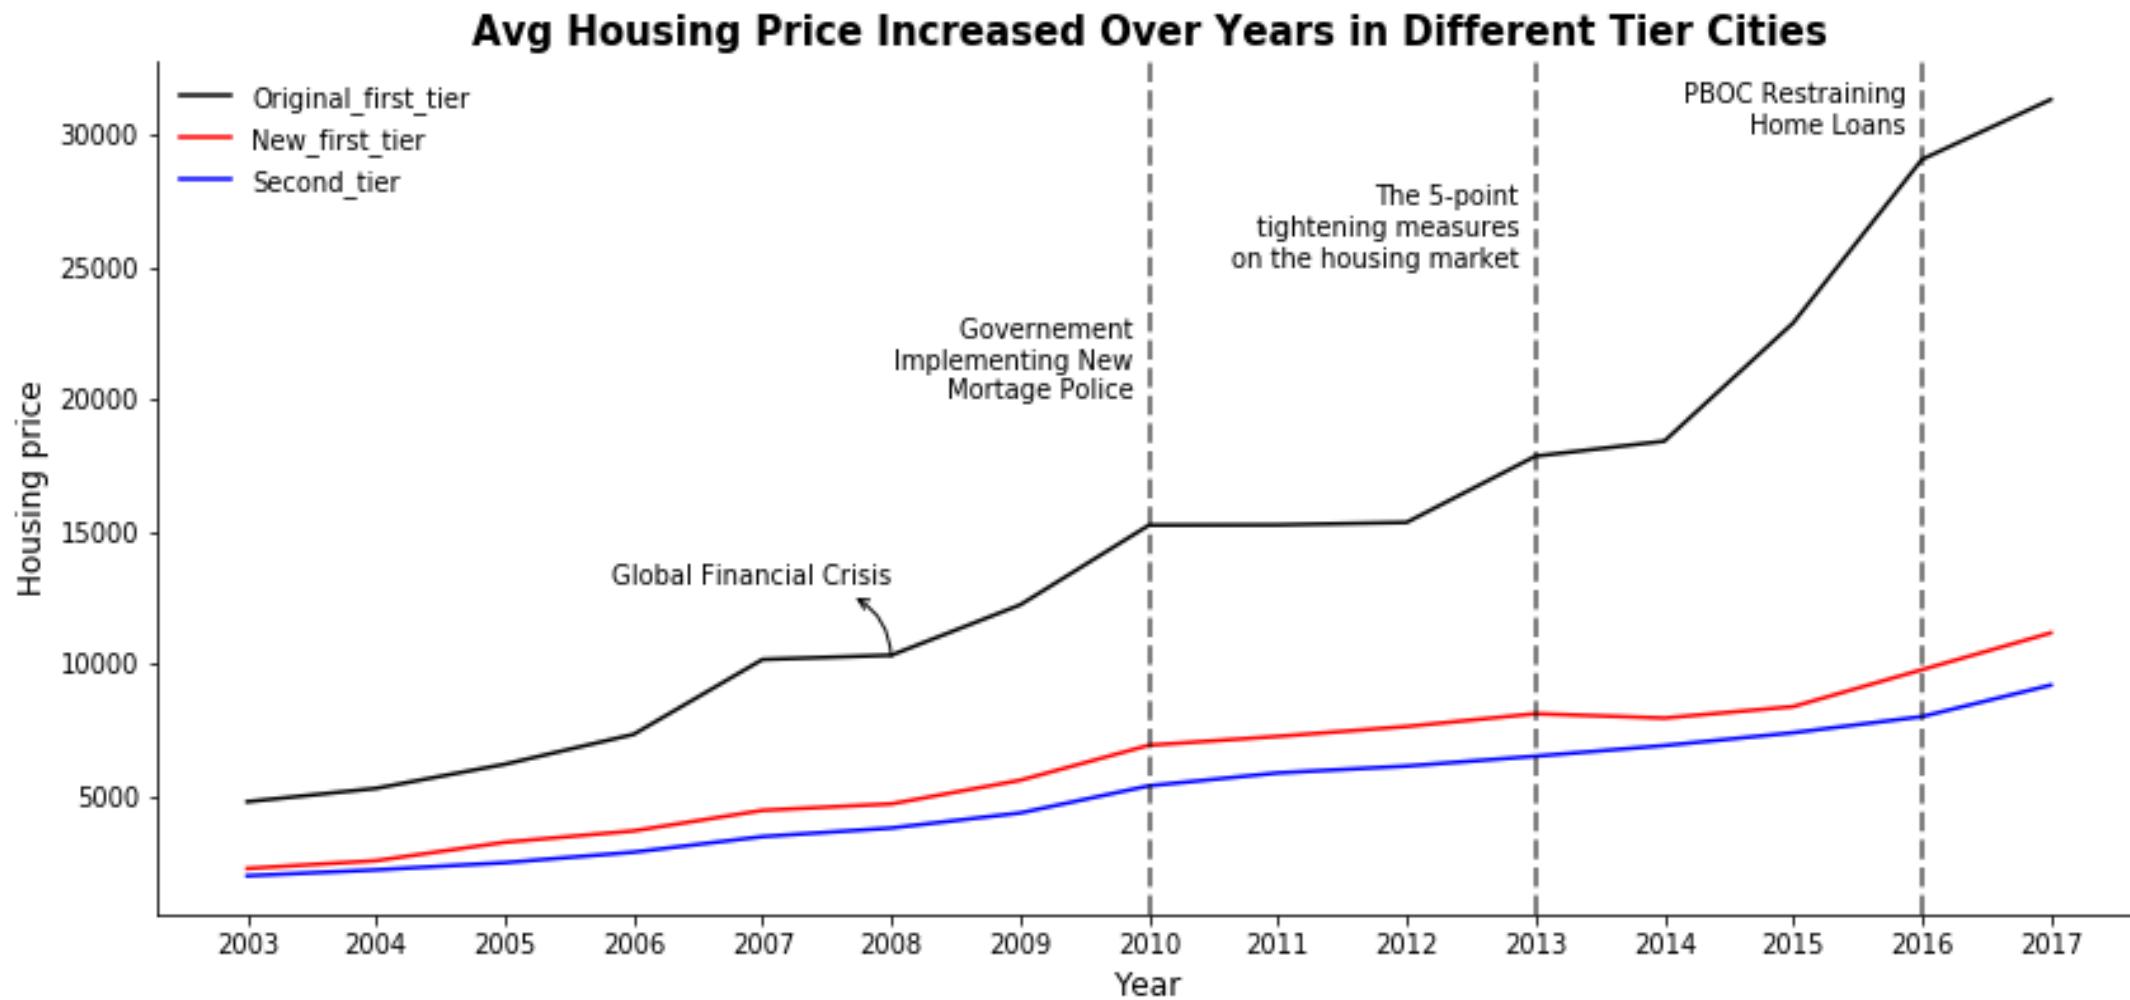

Before 2013

After 2013

* The darker the color, the more investment per capita it presents

A SPECIAL THANKS TO
Professor Michael Waugh
